At the present time there is much competition among Life Insurance Companies, and many agents are far too regardless of the truth, in statements when soliciting for risks, hence it is all important for persons intending to insure their lives, to insure only with agents whom they know to be reliable, again it is always most satisfactors for parties. they know to be remaine, again it is aways most satisfactory for parties assured to have their risks with Local agents, then there is no difficulty or danger of less in transmitting premiums. Persons intending to insure their lives will find it for their advantage to see the agent of the Guardian Mutual before insuring elsewhere.
